OUR STORY

Founded in 2016 by craftsman and designer Davide Micarelli, Micarelli Design is where tradition meets innovation in the shaping of wood, resin, and iron.

Every creation is a reflection of Davide's vision — from material selection to the final details — blending aesthetics and function in perfect harmony.

The roots of this story trace back to 1954, when the Micarelli family opened a timber warehouse.

As a child, Davide learned the craft from his grandfather and father, refining his skills over the years and transforming a lifelong passion into a profession.

Micarelli Design was born from this dedication — a brand built on detail, authenticity, and the elevation of raw materials into timeless design pieces.

HANDCRAFTED PROCESS

In our workshop, wood, resin, and iron are shaped entirely by hand.
Every piece is designed to balance form and function, transforming raw materials into striking visual statements.

From furniture accents to decorative elements, each product is a story of passion, creativity, and craftsmanship.

WALNUT

Elegant and refined, with unique grain and tones ranging from light to dark brown.

Hard and durable — ideal for sophisticated design pieces.

MULBERRY

Rare and delicate, in hues from pale yellow to brown, with a smooth, compact finish — perfect for precision work.

ELM

Unique texture with visible grain.

Versatile and suitable for both modern and classic styles.

Strong and durable, known for its resistance — perfect for design furniture.

CHESTNUT

With tones from light brown to reddish hues, it's robust and ideal for rustic and outdoor pieces.

OLIVE

Famous for its beautiful grain and rich palette from yellow to dark brown – a distinctive and prized wood.

RESIN

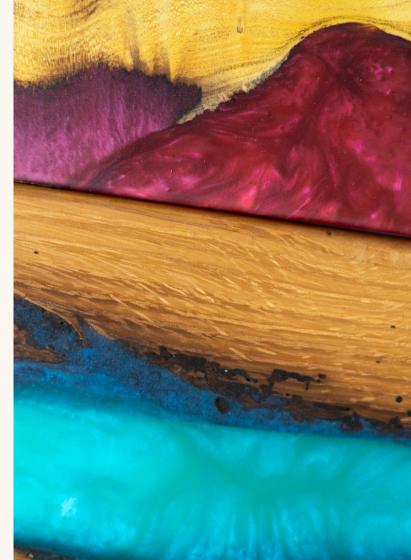

RESIN A FUSION OF MATTER AND CREATIVITY

Originally a clear, two-component liquid, resin is infused with natural powdered pigments to create unique colors and fascinating depth.

Once poured, it slowly air-dries and naturally bonds with the wood — a process that makes each piece one-of-a-kind.

Available in customizable shades, for combinations that are personal and truly exclusive.
